WELCOME TO ROOM EDIT

At Room Edit, we believe design is a need, not a luxury, and that everyone deserves a space that makes them feel at home. Imagined by **Stacey Cohen Design (SCD)**, our digital platform was founded to make interior design accessible through cohesive digital packages that suit your style and accommodate your budget. By cutting down time-consuming elements of traditional interior design, we're able to provide affordable room makeovers for all.

MEET *STACEY*

Driven by her passion for designing functional and sophisticated spaces, Stacey established her interior design firm Stacey Cohen Design in 2010. She took her creative expertise to many high-level projects, assembling an inspiring portfolio of refined interiors featured in some of the world's top design publications. Fast-forward to 2019, Stacey conceptualized Room Edit as a way to bring interior design to the masses and demonstrate that great design is a necessity, not a luxury. With Stacey at its creative backbone, the team of expert interior designers prides itself in delivering affordable design solutions.

THE *PROBLEM*

Traditional interior design is time-consuming, expensive and strenuous. After years in this industry, it bothered Stacey that this service is reserved for the 1%. Alongside the exclusivity, Stacey would receive calls on a daily basis of people looking for a simplified design service that empowered them to execute their own transformations. She knew there had to be a better and more modern approach to interior design that is accessible and affordable for all.

Whether you are a renter or own your own home, purchasing furniture is a massive investment. Room Edit's promise is to give our clients the confidence that they are purchasing the right pieces, in the right size and scale that reflect their style, budget and maintain a cohesive palette. We deliver expert-level design plans at a price-point that won't break the bank.

THE *SOLUTION*

At Room Edit, we bridge the gap between quality and cost, and offer online interior design solutions that make the process of achieving your dream room easy, painless, and affordable. After much research and feedback, we developed two offerings that compliment our customers' needs: the Custom Package and the Instant Package.
